## Scott Remillard Joins Skitter, Inc. as Vice President of Sales

FOR IMMEDIATE RELEASE: October 28, 2010 (Atlanta, GA) — Skitter, Inc. today announced the addition of Scott Remillard to the company's executive team as Vice President of Sales. Remillard will lead the company's sales team in the highly visible and fast-growing hybrid OTT/IPTV market. Remillard and his team will continue to develop and serve a customer base of telecom service providers and entertainment companies for Skitter.TV, an entertainment services delivery platform that converges live TV with over-the top (OTT) video, local programming, apps and user-generated content.

Remillard brings more than 20 years of leadership experience in a variety of telecommunications and telecom technology organizations. Prior to joining Skitter, Inc., he was responsible for sales in the western U.S. for Zeugma Systems. Remillard has also served as regional vice president of sales with Occam Networks, where he was instrumental in building and leading a sales team supporting a large customer base in the western U.S. Before that, he held several sales roles with Advanced Fibre Communications (Petaluma, CA), including northwest sales manager. In addition to his sales experience, Remillard worked in several engineering and management roles for Contel Telephone in California.

Remillard holds a Master of Business Administration degree from the University of Redlands (California), and a Bachelor of Science degree in Industrial Technology from California Polytechnic State University, San Luis Obispo (California).

### About Skitter.TV

Skitter.TV™ is a hybrid IPTV/over-the-top video platform enabling telecom service providers and entertainment content companies to encode, configure, deliver and monetize streaming media services. Skitter.TV provides a broadband media experience on computers, televisions, mobile devices and gaming consoles.

### About Skitter, Inc.

Skitter is a converged media technology company based in Atlanta, GA. Its founders have a combined experience base of more than 50 years in computing, telecommunications and Internet technology and more than 30 years in video technology, including numerous patents in video compression.
