

# Implement TV services for less than \$100k in less than 30 days

Skitter.TV is an end-to-end video platform that:

- Offers true convergence of Web video, video-on-demand and live broadcast/satellite TV – all viewable on multiple screens.
- Offers advances in HD and SD video streaming that serve more customers on less bandwidth.
- Works on existing DSL networks, as well as fiber deployments. Most telco's can cover 60 to 80 percent or more of their service area via existing copper.

The Skitter Acclaim SD video encoder

## The Skitter.TV Fast Start™ system includes:

- Seven Skitter Acclaim SD™ video encoders
- A Subscriber Management Server and middleware
- A Video Server and middleware
- 250 Viewer Software licenses
- Installation services
- Two full years of service and support
- All for only \$99,500

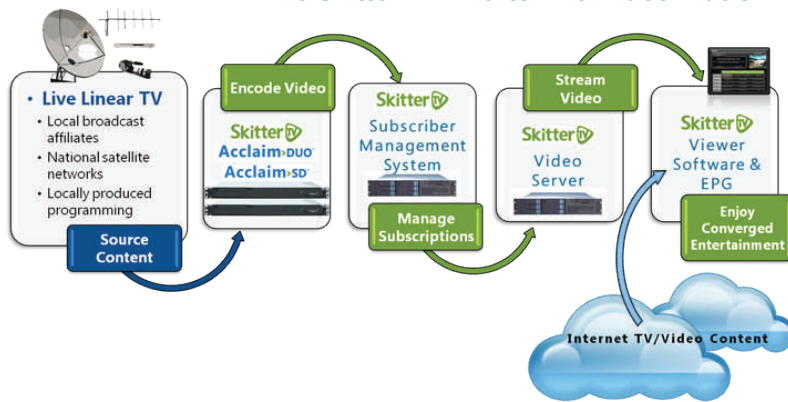

The media and analysts agree: TV services are the race to be won. Service providers the world over are preparing for the competition, racing to TV over-the-top and TV everywhere. It's a whole new game, and it may very well determine the winners and losers in the telecommunications industry.

But you can't win if you don't play. That's why Skitter, Inc. is now offering the Skitter.TV Fast Start™ system — everything you need to install, configure and test TV services. At only \$99,500, the Skitter.TV Fast Start system will get you in the game now at a fraction of the time and cost of virtually any other video platform.

The Fast Start system is an end-to-end solution that lets you encode seven channels in standard definition, include all the Internet TV content you want, and test-market TV service to up to 250 clients. It includes all the hardware and software you need, plus installation services, consulting services, and two years of service and support.

With Skitter.TV Fast Start, you can have TV services up and running for network tuning and market testing in as little as 30 days from order to installation. When you're ready to go to market, the Fast Start system becomes the foundation for your TV service offering.
